- P6** Visitor Parking is available at the entrance of the Center for Nursing

## Visitor Entrances

- E1** Main Entrance
- E2** Stoneridge Gate
- E3** East Gate

## 1 College Hall

Built in 1916, College Hall is home to our administrative offices—including the Office of the President, Office of Admission, financial aid, registrar, bursar, IT Support, and business office. Feel free to walk around to our back patio for a view of one of Endicott's private beaches.

## 2 Public Safety & Police

With a staff of public safety officers as well as sworn police officers, our commitment to safety is a top priority. Endicott's emergency blue light network, visible throughout the campus, adds an extra layer of security for students in need of immediate assistance.

## 3 Callahan Center

Renovated in 2014, the Callahan Center is the hub of campus. On the lower level, you will find Student Affairs, Student Activities, Community Service, Residence Life, Health Services and our Counseling Center. Endicott's Health Center is full-service with nurse practitioners and a supervising physician on staff. Lower Callahan hosts daily events and is a great place for students to hang out. You will also find that it is home to EC Radio, our student run-on campus radio network!

On the upper level of the Callahan Center you will find the main dining hall, which offers a wide variety of freshly prepared meals. For students with allergies, Endicott offers simply-prepared meals that are prepared without seven of the most common allergens.

## 4 Curtis L. Gerrish School of Business & Ginger Judge Science Center

As you enter the Gerrish Business & Judge Science Center, you will find the main lobby where students enjoy hanging out and studying in between classes. Einstein Bagels serves as another food option for students to enjoy on the first floor. The building is home to the Gerrish School of Business on one side and the Judge Science Center on the other. Walk around the facility for a glimpse of our MakerSpace, 3-D printers, team-building classrooms, and cutting-edge laboratories.

## 5 Hempstead Stadium (athletic complex)

Hempstead Stadium is one of our three athletic fields and hosts our NCAA DIII men's and women's soccer, lacrosse, and men's football as well as some of our club and intramural programs. Field hockey, softball, and baseball fields can be spotted in the general area as well.

## 6 Post Sport Science & Fitness Center

Through the main entrance of the Post Center to your right is a full-service fitness center with group classes offered as well. At the end of the hall is the MacDonald Gymnasium, home to men's and women's volleyball and basketball. Upstairs you will find the field house where many intramurals are held, along with team practices and larger campus events such as our Internship, Co-Op & Career Fair, Relay for Life, concerts, and more! This building is also home to the School of Sport Science & Fitness Studies which includes sport management, exercise science, and athletic training.

## 7 Samuel C. Wax Academic Center (& Phase II)

Completed in 2019, the Wax Academic Center is home to the Schools of Communication, Education, Hospitality, Humanities, and the Van Loan School of Professional Studies. Phase II, left of the Wax Academic Center on your map, will be completed in early 2021 with seminar rooms and a large gathering space for events.

## 8 Diane M. Halle Library

The Diane M. Halle Library, located in the heart of the campus, is a major academic support unit for students. The library is a hub of information resources and a gathering place for students, staff, and faculty alike. It is also home to academic services such as the writing and tutoring centers, the International Education department, Internship & Career Center, Cyber-Cafe (open 24/7), and classrooms.

## 9 Walter J. Manninen Center for the Arts

The Manninen Center for the Arts is where you will see creativity bloom. This building features art galleries, a 250 seat state-of-the-art performance center, a recording studio with soundproof practice rooms, a digital printing laboratory, a black box theater, and many studios for various art classes.

## 10 First-Year Housing Area

The first-year housing area includes Reynolds, Endicott, Brindle, Peter Frates, Hale, Hamilton, Wenham, and Trexler Halls. Each building is unique in its own way. Rooms of two, three, or four, or a suite of five or six are available. Some residence halls include private bathrooms while others offer common bathrooms on each floor, laundry rooms, and common areas which provide space to socialize or study.

## 11 Center for Nursing

The Center for Nursing houses classrooms and simulation labs for our nursing students to practice skills in a hospital environment prior to their clinical learning experience. The nursing labs serve as a learning resource available to all undergraduate and graduate nursing students and are equipped with infant, pediatric, and patient simulators. These labs provide hands-on opportunities where students can learn, practice, and demonstrate nursing skills in a safe and supportive environment.
